

# Reyton Brake Fluid DOT 4

## Brake and Clutch Fluid

Product Data Sheet

### PRODUCT DESCRIPTION

Reyton Brake Fluid DOT 4 is a brake and clutch fluid designed and formulated to provide excellent lubrication and performance for the braking system and clutch. Reyton Brake Fluid DOT 4 meets or exceeds the requirements of various manufacturers and industry standards which outperforms conventional products.

### BENEFITS

- Superior protection for metal surfaces
- Minimizes component wear and leakage
- High thermal and oxidation stability
- Ensures good brake response and good performance during service life
- Maintains braking performance for a longer time than DOT 3

### FEATURES

Reyton Brake Fluid DOT 4 is a brake and clutch fluid with high thermal stability recommended for automotive brake and clutch. Reyton Brake Fluid DOT 4 is complies with the SAE J1704 service classification.

### APPLICATIONS

- All hydraulically operated vehicle braking systems including drum and disc types for which DOT 4 is specified
- Vehicles with anti-lock (ABS) braking systems
- Hydraulic clutch systems requiring conventional fluids
- For passenger cars, commercial road transport, and motorcycles

### MEETS OR EXCEEDS STANDARDS

- SAE J1704

TESTS	RESULTS
Colour	WHITE
FMVSS Grade	DOT 4
pH	8.5
Viscosity, mm <sup>2</sup> /s @ 40°C	1250
mm <sup>2</sup> /s @ 100°C	2.24
Equilibrium Reflux Boiling Point, °C	240
Wet Equilibrium Reflux Boiling Point, °C	160
