

Reyton Gear Oil EP 80W-90 API GL-5

Gear and Transmission Oil

Product Data Sheet

PRODUCT DESCRIPTION

Reyton Gear Oil EP 80W-90 is a gear oil designed and formulated to provide excellent lubrication for the manual transmission under extreme condition. Reyton Gear Oil EP 80W-90 meets or exceeds the requirements of various manufacturers and industry standards which outperforms conventional gear oils.

BENEFITS

- Latest Tacky formulation providing excellent lubrication on gears
- Superior shear stability
- Reduces oxidation and less wear on gears
- Exceeds GL-5 specifications
- Remains the viscosity even at high temperature
- Compatible with typical automotive seals and gaskets

FEATURES

Reyton Gear Oil EP 80W-90 is a gear oil with high thermal stability recommended for automotive manual gearboxes. Reyton Gear Oil EP 80W-90 is complies with the API GL-5 service classification.

APPLICATIONS

- For manual gearboxes of passenger cars, trucks, commercial vehicles and construction equipment
- Heavy duty axles and final drives requiring API GL-5 level performance
- Off highway industries including but not limited to construction, mining, quarrying, and agriculture
- Heavy duty industrial and automotive applications involving hypoid gears operating under conditions where high speed/shock load, high speed/low torque, and/or low speed/high torque prevail

MEETS OR EXCEEDS STANDARDS

- API GL-5

TESTS	RESULTS
SAE Grade	EP 80W-90
Viscosity Index	129.885
Kinematic Viscosity	
@40°C, cSt (ASTM D445)	148.665
@100°C, cSt (ASTM D445)	17.568
Flash Point, °C (ASTM D92)	220
Pour Point, °C (ASTM D97)	-25
