

Reyton Fully Synthetic LSD SAE 75W-90 Gear and Transmission Oil

Product Data Sheet

PRODUCT DESCRIPTION

Reyton Fully Synthetic LSD SAE 75W-90 is a fully synthetic gear oil designed and formulated to provide excellent lubrication for the LSD transmission gear under extreme condition. Reyton Fully Synthetic LSD SAE 75W-90 meets or exceeds the requirements of various manufacturers and industry standards which outperforms conventional gear oils.

BENEFITS

- Tacky formulation providing excellent lubrication on gears
- Superior shear stability
- Reduces oxidation and less wear on gears
- Exceeds GL-5 specifications
- Remains the viscosity even at high temperature
- Maximum protection and improvement of differential efficiency for better mileage and longer drain intervals

FEATURES

Reyton Fully Synthetic LSD SAE 75W-90 is a fully synthetic LSD gear oil with high thermal stability recommended for limited slip differential (LSD) working under extreme pressure conditions and slip characteristic of vehicles used for sport driving.

APPLICATIONS

- Used in limited slip differential (LSD) gears for pickup trucks
- Suitable replacement for a differential calling for 80W-90 or SAE 90 gear oil

MEETS OR EXCEEDS STANDARDS

- API GL-5
- SAE 75W-90

TESTS	RESULTS
SAE Grade	LSD 75W-90
Viscosity Index	150.04
Kinematic Viscosity	
@40°C, cSt (ASTM D445)	112
@100°C, cSt (ASTM D445)	15.8
Flash Point, °C (ASTM D92)	215
Pour Point, °C (ASTM D97)	-42
