

# Reyton Long Life Coolant

## Radiator Coolant, Anti-Freeze and Corrosion Inhibitor

Product Data Sheet

### PRODUCT DESCRIPTION

Reyton Long Life Coolant is designed with unique cooling technology to provide excellent corrosion protection for all engine and cooling system metals, including aluminum, steel, iron, copper and alloys. Reyton Long Life Coolant meets or exceeds the requirements of various manufacturers and industry standards which outperforms conventional coolants.

### BENEFITS

- Ultimate protection against corrosion
- Extended service life
- Reduced maintenance costs

### FEATURES

Reyton Long Life Coolant is multipurpose coolant with extreme protection against rust and corrosion recommended for all kinds of vehicles.

### APPLICATIONS

- Passenger cars with gasoline and diesel engines
- Light duty vehicles with gasoline and diesel engines
- Heavy duty vehicles with diesel engines
- Suitable Replacement for green colored coolants

### Service Intervals

-240,000 KM or 5 years service

TESTS	RESULTS
Color	Crimson Red
Pour Point, °C (ASTM D97)	-40 (with 1:1 ratio) -22 (with 1:2 ratio) -17 (with 1:3 ratio)
